

Church Management Anytime, Anywhere...

ICON CMO
systems

A complete web-based church management system for use with any of the popular browsers and operating systems. IconCMO offers an effective approach to managing your church in the form of 6 integrated modules with access from anywhere having an internet connection:

- Membership Information Module
- Contribution Module
- Communication Module
- Fund Accounting Module
- Payroll Module
- Parishioner Access Module

Powerful Software For Building & Maintaining A Thriving Ministry

Complete Data Security

IconCMO is protected with 256-bit encryption, strongest data encryption available. All transmitted data uses this encryption similar to what is used by online banking systems. This additional feature is provided at no additional cost, unlike other web-based systems which charge up to \$300 per year.

Membership Module

Offers all the administrative functions you would expect from the best.

- Flexible member and household tracking
- Members can be assigned to multiple households
- Multiple addresses can be defined for households and members
- Unlimited special events per member such as birth, baptism, marriage information, etc.
- Member archiving system
- Church directory and pictorial directory
- Private notes for pastoral visits
- Group management and event attendance
- Talent tracking and management
- Attendance tracking by fiscal year
- Comprehensive selection of standard reports
- Statistical graphs to analyze changes from year to year
- Export data onto a local machine for specialized reporting analysis

Communication Module

With seamless, electronic communication you can share information much faster and without the expense and time of postal mail.

- Send unlimited text messages directly to your members' cell phone
- Create and send unlimited html emails
- Send mass e-newsletters to any group
- Attachment size allowed up to 5 MB
- Send follow-up emails to your visitors
- Ability to track attendance to an event for future communication

Your data is automatically backed up daily !

Contribution Module

Provides all the features needed to manage partial year, full year, and multi-year funds.

- Pledges can be entered for each fund
- Envelopes can be assigned to households and/or members
- Track multi-year funds and pledges
- Accurate and fast contribution statements
- Multiple statement styles are available to choose from
- Email contribution statements
- Integrated online donation solution available from Vanco Services
- Unlimited years worth of data can be retained for historical purposes
- An extensive set of financial reports are available to analyze giving versus pledging
- Seamless integration with the fund accounting module creates the accounting transaction automatically

Parishioner Module

A complete separate module is available to authorize a household to view and/or edit their information. The features include:

- Each household has a secure username and password
- Households can update their own personal information so you don't have to
- Member can also click an email button and quickly alert church office to any errors detected or family changes that have occurred
- A history of contributions given can be displayed both in text and graphical format
- All information is transmitted in encrypted format to guarantee privacy

Fund Accounting Module

IconCMO fund accounting module is a great way for your church to accurately track finances and create the financial reports your church needs. IconCMO is a true fund accounting package that adheres to the FASB 95 and FASB 117 guidelines. No matter where you are or what time it is, all you need to access the system is an internet connection.

General Ledger

- Flexible Chart of Accounts with multi-tier hierarchy

Payroll Module

IconCMO Payroll module reduces operational costs for small and medium size organizations by preparing the payroll checks, assisting in the payment of the payroll liabilities to the government and other agencies. Since it is linked to a true fund accounting package, there is no need for double entry and the entries will automatically be posted into the correct fund. The ability to enter tax formulas are built into the system eliminating the need to subscribe to expensive add on payroll tax services. All of these benefits result in a high value low cost payroll solution for the organization.

- Icon Payroll allows for an unlimited number of employees and employee deductions
- The system maintains all the payroll liability accounts and provides a special tax payment form whereby you can print checks to the various government agencies
- All activity is tracked using fund accounting guidelines
- Detailed reports including employee hourly adjustments, payroll tax accounts, payroll check history, and tax detail by employees etc. are available

Reviewed by a national CPA firm for security and adherence to accounting standards for churches.

"...the freedom and flexibility we've enjoyed moving to a truly internet-based product has been fantastic. Having our entire suite of church management tools, including the fund accounting software, online has proven to be exactly what our church needed to keep up with our growth and changing technology."

- Ona May

"We've truly enjoyed our relationship with ICON Systems since purchasing Revelations. We appreciate that we're working with people, not just a company."

- Jackie

Value Made Complete

There is only one way to say it, "IconCMO covers it all." You can accurately predict expenses since everything is included with an IconCMO subscription. There is no hardware or software to buy, no upgrades, no maintenance fees, no service contract renewals, and no hidden costs. All the technical support you need is covered, too. And our low monthly subscription fee will be easy on your budget.

About Icon Systems

For more than 18 years, Icon Systems has been developing high-quality software exclusively for religious organizations. The company was founded in 1992 by Robert Gifford, who previously headed research and development for Great Plains Software and helped create Great Plains Accounting and Dynamics, two highly popular accounting software systems. Icon Systems' software is currently used by thousands of churches nationwide. Since its founding, Icon Systems has become legendary for its commitment to high-quality products as well as outstanding service and support.
