

## Partners/ Current Integrations

### Electronic Donations by Vanco Services

Vanco Services, LLC specializes in processing debit and credit card transactions for online giving, electronic fund transfer (EFT), and check scanning for donations. IconCMO has a seamless integration with Vanco to download these donations into the Contributions module of IconCMO eliminating duplicate entry for financial secretaries. In addition to the integration, Vanco gives their clients access to reports, scanned checks, and a history of donations through their web portal. More than 10,000 nonprofit organizations are currently using Vanco for their electronic donation solutions.

### Volunteer Coordination by VolunteerSpot

It's never been simpler to organize volunteers than with VolunteerSpot's FREE and easy online volunteer coordination tool and online signup sheets. Save time and say goodbye to reply all email, spreadsheet juggling, illegible clipboard signup sheets and phone-tag. VolunteerSpot makes it easy for ANYONE in the congregation to schedule, sign up and remind volunteers. VolunteerSpot's premium service includes advanced features like hours tracking and custom registration fields. Use IconCMO preferred promo code ICON100 to receive three additional months free with your paid premium upgrade.

### Case Studies & Best Practices

- The Church Has Left the Building: Windsor Road Christian Church of Champaign, Illinois takes leads their whole congregation into the community for a Weekend of Service.
- VBS, LEM, Festival Fundraisers, Youth Service, Meals Ministry and more...: See tips and Spotlights about how VolunteerSpot saves time organizing church volunteer activities.

### Email marketing by Constant Contact

Email marketing with Constant Contact provides professional-looking email templates, personalization features, and vital statistical tracking of emails allowing you to communicate with your congregation more personally and reach out to visitors more successfully. It's better and more effective than regular email. [Free 60 day trial offer.](#)

IconCMO allows you to export email addresses from IconCMO directly in to Constant Contact, eliminating duplicate entry.

## Case Studies

- [Bethany First Church](#)—How Bethany First Church of the Nazarene in Bethany, Oklahoma used email marketing and saved money.
- [Diocese of Atlanta](#)—Learn how Diocese of Atlanta stayed connected, built a community, inspired people and redirected their savings from Constant Contact to other ministries.

### Media Fusion by UpperRoom Technologies

One problem faced by many educational and non-profit organizations (such as churches and schools) that want to start podcasting is that they lack the technical expertise to manage their podcasts effectively. Often times they do not have the budget for contracting a custom solution either. Media Fusion's one click podcast feature helps organizations easily overcome this limitation. Simply upload an mp3 file to Media Fusion, select "add this lesson to podcast" and give the lesson a category and description. It's as easy as that! Your podcast was just updated! Media Fusion hosts the audio content and generates the code automatically!

---

### Online Directory by Icon Systems

Include a photo directory directly on your church's website! And, it is always up-to-date with the most current information from IconCMO. Simply click the "More Information" link below, follow the short instructions, and you'll have a secure photo directory integrated into your web site. For the technically inclined, the directory is a sample Javascript-based directory (using the Dojo toolkit) that features easy install, customizable appearance, lazy-loading, pictures, and Facebook links. No server-side programming language is required. See the more information link for installation instructions and a download.

---

### Online Event Calendar by Icon Systems

Include your church's events calendar directly on your church's website, instantly up-to-date with information from IconCMO! Simply click the "More Information" link below, follow the short instructions, and you'll have a public events calendar up on your web site. This app requires you to have PHP 5 or better installed on your web server, as well as the CURL extension to PHP. Most web hosts offer this feature—ask yours for more information. See the more information link for installation instructions and a download.
